All prices are inclusive of taxes.

# Indexes (Thin & Light)

Lens thickness depends on your frame type & size, material and power

Ordinary Lens

Lens activated with Fog Shield

If you wear glasses, you'll understand the struggle of your glasses fogging up and slowing you down.

Whether you are wearing a mask, stepping indoors during winter or enjoying a hot drink, anti-fog lenses (activated by Fog Shield selvette, packed with Antifog Nano Particles) keep your glasses clear.

Anti-Fog Protection

Usage Life: 12 Months

Lasts up to 200 Uses

Packed with Anti-Fog Nano Particles

# Photochromics

Optical Lenses that darken on exposure to Ultra-Violet (UV) light. Without UV they return to their clear state.
