320	IQC	Poor Quality	Images are marked for Poor Quality if image is: Blurred, Products are cut, has jarred edges, loose fitted products on Model, Poor editing, is black and white image or Over or under saturated image
321	IQC	Background issue	Images are marked for Background issue if it has: Dark or lifestyle background, Patches on background. Image should have light shade background preferably RGB range: 200-255

322	IQC	Multiple products	Showing multiple views on first image, products which are not on sales or overpropping is not allowed. Show a good view of only the product on sales with less propping
323	IQC	Color and Size Consistency	The color and size of product on sale should be consistent across the images shared to avoid customer confusion
324	IQC	Not enough information	Images are marked under this rejection when: Only one image is shared, product in the image is too small in the frame, sharing Placeholder images or images with scan bed, leading to poor buying experience. Also, product sold should match the Title and brick.
325	IQC	Disproportionate/ Illustrations/ Texts/ Watermarks	Image shared should not have product stretched/ skewed, First image with inset images showing product in use. Logo, watermark, illustration of product, added text in first image, promotional texts, added border or frame around image is not allowed
326	IQC	Package	Package view of product is allowed only as secondary images and not as First. First image should show good front view of product outside pack
327	IQC	Obscene	Images should not depict nudity/ vulgarity. Breasts/ Nipples/ Genitals must be covered with clothing. Hands/ Bars/ Graphics/ Air brushing are not acceptable as proper coverage. Lewd or provocative images like fondling, implied masturbation, implied sexual contact between two or more people are allowed for Sexual wellness products. Unparliamentary words on products are also not acceptable
328	IQC	Others	Anything not falling under above list and cannot be approved in QC due to other reasons, will be marked under this with appropriate comments for fixing
329	CQC	Incorrect/Incomplete mandatory legal attributes	Legal Mandatory attributes are either missing or not filled correctly. PFB the guidelines for the same.
330	CQC	Incorrect color family	The color related attributes are incorrectly captured. PFB guidelines for the same. Primary color - This field is used to capture the colour which appears on the PDP, update the correct colour with proper casing and use '&' if there is a secondary color. Example: Red, Blue, Black & White, Gold-Toned, Off-White, Mustard Yellow, Olive Green. If there are more than two prominent colours, please capture it as Multicoloured and make the selection as 'Multi' from the color family drop-down list. Packs & Sets Colour Enrichment: 1. Pack/Set of 2 (All Gender & Bricks) • Primary Colour – Capture both colours (E.g.: Black & White) • Colour Family – Colour 1 (E.g.: Black) • Secondary Colour – Colour 2 (E.g.: White) 2. Pack/Set of 3 or more (All Gender & Bricks) • Primary Colour – Multicoloured • Colour Family – Multi • Secondary Colour – n/a 3. If all the products in a Pack are of the same colour in all 3 scenarios, then please capture just that colour as the Primary Colour and Colour Family. 4. However, for Innerwear if the brand calls them as Assorted in the content sheets/tool, then they need to be captured as: • Primary Colour - Assorted • Colour Family - Multi
331	CQC	Duplicate Style code	The articles are created incorrectly. Item SKUs (size variants) are captured in Style code column. Please capture same style code against all size variants of one style code, else it will show duplicate products on website
332	CQC	Incorrect brick	The style code is not mapped correctly. Please map the article in the correct brick as stated in rejection remarks

333	CQC	Incorrect/incomplete measurements	Information for measurements is not as per requirements. PFB the guidelines to capture the same 1. Ensure to capture dimensions units (cm, m, inches etc) and attribute name for every measurement for e.g. Saree length: 1.1 m; Height: 45 cm etc. 2. Ensure that the dimensions in scale images and content sheet are same
334	CQC	Incomplete/incorrect fabric/material information	1. Fabric type & Fabric detail should compliment each other 2. Fabric should be corresponding to the images e.g. for a Lace/net product do not capture just Cotton as fabric type and fabric detail. Instead capture Fabric type as Cotton or Net and in Fabric detail capture Net, cotton etc. 3. Do not capture Fabric type & Fabric detail both as "blended" or "Others". Give specific values
335	CQC	Size guide not available	The catalogue is uploaded without sharing the size chart with us. Or size chart is shared post upload. Please share the size chart & reupload the catalogue
336	CQC	Content-image mismatch (1)	1. Set or a single product: when the product image is coordinated with multiple products, QC cannot make out what is the correct component count of the product. Please add a disclaimer: "The coordinated bottomwear has been used for the purpose of styling only and does not come with this product" or "The coordinated top has been used for the purpose of styling only and does not come with this product" OR "The coordinated inner has been used for the purpose of styling only and does not come with this product". a) Strictly avoid coordinating accessories with other accessories, as it led to confusion. E.g. if the product is pair of earrings do not shoot images with model wearing a mangtikka along with earrings. b) Avoid images with extra pillows/cushion/duvet covers as it leads to rejection.
337	CQC	Content-image mismatch (2)	2. Component count mismatch: Component count value is not matching with images. Component count value is the number of products which can be individually used in the style code. Listing down bricks with component counts which are frequently rejected: a) Earrings (pair) -1 b) Earring (single/cuff) -1 c) Pack of many earrings- number of pairs in the pack d) Necklace-1 e) Mangtikka-1 f) Necklace & earring set - 2 g) Necklace, earring, Mangtikka set - 3 h) Bangles - number of bangles in the product i) Anklets (pair) -1 j) Ankle(single) - 1 k) Nosepin -1 l) Rings -1 m) Shoes(pair)- 1 n) Bag with multiple inner pouches - total number of individual bags o) Bedsheet with pillow cover- 3 p) Pack of 2 Bedsheets - 2 q) Set of 6 glass tumblers - 6 etc.
338	CQC	Content-image mismatch (3)	3. Pack or single piece: At times sellers upload the pack image as well but component count is captured as 1 and net quantity is also captured as 1N leading rejection. a) Capture the component count as per the images. If there is a pack image and product is a pack or 2,3,4.. change the component count as 2,3,4.. b) If the product is a single piece remove the pack image and re-upload c) If the product has featured like glow in dark/reversible due to which dual images are captured please add it in additional information attributes
339	CQC	Content-image mismatch (4)	4. Pack image not staged: if component count is more than 1, please ensure to stage the pack images, without which catalogue will be rejected
