Key points to n	ote:																																
Light Red fields	are mandatory and	vellow fields are	optional																														
ES-MLF allows sellers to have a different return address (within the same state as pickup). In case a seller wants to have a different return address, please enter details accordingly else keep pickup and return address details same																																	
Non-operating days specify the non-working days of stores/warehouses. For instance if a store/warehouse is not working on Sunday, then please mention Sunday in the column																																	
Kindly provide "Pickup Location Name" that will be printed on invoice and ship label along with address of the store/warehouse																																	
"Smart console type", "seller use case", "seller default GST uploaded" and "seller opted in for ES" take only specific values. Please click on the dropdown or check glossary to understand the inputs required																																	
TRUE By clicking on this tick box, you are providing consent to communicate to store POCs via the shared email IDs/phone numbers. This is required to share weekly reports/communications with store POCs
